Thanks Lucita, and guess it's a good thing I wasn't able to be on the hunt to find you! Unfortunately I'm jumping between meetings this morning, but I'm relatively open the rest of the day after 1pm PT if you have a moment to check in.

Hey Alexa – I actually wasn't there, so it's a good thing that you didn't try to look for me! Why don't you give me a call to chat about this. I'm pretty free this morning until 10:30am your time.

Subject: Oil/gas AE's

Hi Lucita,

I'm sorry we didn't get to connect at the conference in DC- it was difficult to find people between the sessions!

Our groundwater program here in R9 is working with CA's oil and gas division (Class II primacy agency) to create model packages for Aquifer Exemptions for both hydrocarbon and non-hydrocarbon formations. I understand you have had a number of hydrocarbon exemptions in your region and I wanted to see if you could share both the application material and EPA approvals, as we are attempting to give the state examples of successful packages. They are submitting pilots this week so anything you can share would be appreciated!

Many thanks,

Alexa
